REPORT OF
TRUSTEES OF PUBLIC LIBRARY
OF WINCHESTER.

The trustees of Winchester Public Library take pleasure in presenting their tenth annual report to the town. They wish to call the attention of the voters to the fact that by careful retrenchment in every direction they have been able, with but a special appropriation, to pay for the new heating apparatus which was put into the library last year. Whether, however, this is really wise economy is a matter of grave doubt, for we have not been able to add to the value of the library by the purchase of new books to any extent. It will be a happy day for Winchester when the tax payers of the town realize the fact that money wisely spent on books is an investment whose value cannot be estimated simply in dollars and cents, but which will prove of lasting and increasing benefit to all who will avail themselves of the privileges of the library. When that day comes special appropriations will be granted for special needs and a reasonable number of books will be added yearly to our shelves. A new book charging system has recently

been adopted which is proving very satisfactory. A complete record can now be kept, and hereafter the librarian will be able to give at the end of each year, not only the whole number of books drawn, but the several departments under which they come.

Respectfully submitted,
